

# MSS Impact Presses

# Monode™ Steel Stamp

Our complete line of impact presses features:

- Easy Height Adjustment
- Heavy Duty Construction
- Precise Marking Force
- Safe and Simple to Operate
- High Production

- Minimum Maintenance
- Lower Making Costs
- Easy Installation
- Wide Range of Applications

The MONODE line of manual and pneumatic impact presses provides the versatility needed in your manufacturing operation. Whether the need is marking, piercing, shearing, punching, forming, stamping or assembly, the MONODE impact press will be one machine for all your needs. The unique impact spring design provides consistent pressure from piece to piece, even with variations of the air pressure or operator input.

*Air Series*

*Manual Series*
